1. Resolution 1 – Ratification of Placement of Shares

In August 2006 the Company made a placement ("**August Placement**") of 196,645 Shares to the Emerald Trust at an issue price of 20 cents each thereby raising \$39,329 for the Company (before expenses).

The August Placement was made pursuant to an Underwriting and Placement Agreement dated 25 July 2006, to investors under section 708 of the Corporations Act overseas and as a consequence no prospectus or other disclosure statement was issued in relation to the Placement.

Shareholder approval was not required for the August Placement. However, shareholder ratification of the Placement is sought pursuant to Listing Rule 7.4 so as to reinstate the ability of the Company to place up to 15% of the issued capital of the Company during the next twelve months without obtaining prior shareholder approval.

Additional Information regarding the August Placement

The following additional information is provided to shareholders pursuant to Listing Rule 7.5:

- (a) the number of Shares issued was 196,645;
- (b) the Shares were issued under the August Placement for an issue price of 20 cents each;
- (d) the August Placement was made to the trustees of the **Emerald Trust**;
- (e) the Shares are fully paid ordinary shares ranking pari passu in all respects with all other fully paid ordinary shares in the Company on issue;
- (f) the purpose of the August Placement was to enable the Emerald Trust to subscribe for a sufficient number of shares such that their percentage interest in the Company's issued capital did not exceed 19.9% following their underwriting of the 31 July 2006 Listed Options;
- (g) The funds raised by the August Placement were used to augment existing funds to be used for business development, research and exploration of the Company's projects, and working capital.

In November 2006 the Company made a placement ("**November Placement**") of 6,185,000 Shares at an issue price of 25 cents each thereby raising \$1,546,250 for the Company (before expenses).

The November Placement was made to institutional, sophisticated, professional or other investors under section 708 of the Corporations Act in Australia and overseas and as a consequence no prospectus or other disclosure statement was issued in relation to the Placement.

Shareholder approval was not required for the November Placement. - (e) the Shares are fully paid ordinary shares ranking pari passu in all respects with all other fully paid ordinary shares in the Company on issue;
- (f) the purpose of the November Placement was to supplement existing financial resources and the intended use of the funds raised is to provide working capital in relation to the following activities:

Use of Funds	Amount
Advancement of the Company's Western Australian Projects	\$800,000
The Company's Business Development Strategies	\$500,000
Administrative Overheads (staffing)	\$168,938
Brokerage in respect of the Issue @ 5%	\$77,312

- the Company's business development strategies to seek out and evaluate new business opportunities including joint venture partners and corporate spin off (float) opportunities; and
- personnel, regulatory and administrative requirements reflected in the budget figures.

Allocation of funds may be adjusted depending upon the success of the Company in its activities.

The Company has active and flexible business development strategies including generating growth through obtaining funding for its projects through joint ventures and new floats which could result, thus releasing some of its funds, including these funds, for reassignment into other exploration or mining projects including new projects.

All of the Directors recommend that Shareholders vote in favour of this Resolution as it allows the Company to retain the flexibility to take advantage of commercially appropriate opportunities, through the issue of further equity securities representing up to 15% of the Company's share capital during the next 12 months without the need to first seek shareholder approval under Listing Rule 7.1 of the Listing Rules of the ASX.

All of the Directors were available to consider the proposed Resolution.

2. Resolutions 2, 3 & 4 - Issue of Options to Consultants associated with Directors of the Company

2.1 Background

Shareholder approval is being sought in Resolutions 2, 3 and 4 to grant and issue a total in aggregate of 6,500,000 Options to consulting companies which provide high level consulting services to Aurora Minerals Limited which are associated with the Directors of the Company, namely Dr Robert Taylor, Mr Garry O'Hara and Mr Phillip Jackson.

The exercise price of these Options will be at a 25.16% premium above the market price of the Company's shares on the date upon which the Options are issued. For example if the market price for the shares in the Company at the time the Options are issued is 31 cents, the exercise price will be 38.80 cents and if all the Options are exercised this will raise \$2,716,000 for the Company.

The Company proposes to offer, and if accepted, grant and issue a total of:

- 3,000,000 Options to Able Kids Pty Ltd or its Nominee. Able Kids Pty Ltd, the consulting company of Aurora Minerals Limited's Managing Director, Dr Robert Taylor, has been retained by Aurora Minerals Limited to provide the Company with geological and business development services; and
- 3,000,000 Options to Anketell Pty Ltd or its Nominee. Anketell Pty Ltd, the consulting company of Aurora Mineral Limited's Executive Director, Mr Garry O'Hara, has been retained by Aurora Minerals Limited to provide the Company with geological and business development services; and
- 500,000 Options to Holihox Pty Ltd or its Nominee. Holihox Pty Ltd, the consulting company of Aurora Mineral Limited's Chairman of Directors, Mr Phillip Jackson, has been retained by Aurora Minerals Limited to provide the Company with commercial advice.

The grant of Options is designed to provide a material additional incentive for the ongoing commitment and dedication of the above consultants to the continued growth of the Company without drawing on the Company's cash reserves.

The terms and conditions attaching to the Options are set out in the Appendix.

2.2 Chapter 2E of the Corporations Act 2001

Chapter 2E of the Corporations Act 2001 prohibits the Company from giving a financial benefit to a related party of the Company unless either:

- (a) the giving of the financial benefit falls within one of the nominated exceptions to the provisions; or
- (b) prior shareholder approval is obtained to the giving of the financial benefit.

For the purposes of Chapter 2E, each director of the Company is considered to be a related party of the Company. Similarly each company controlled by a director is considered to be a related party of the Company. Accordingly, the issue of the Options to Anketell Pty Ltd, Able Kids Pty Ltd or Holihox Pty Ltd or their respective Nominee pursuant to the proposed Resolutions constitutes the provision of a financial benefit to related parties of the Company.

Although the issue of Options may fall within one of the nominated exceptions referred to in paragraph (a), this is not entirely certain and accordingly, in the interests of certainty it has been determined to seek shareholder approval to the issue of the Options to the consulting companies or their Nominees.

Consequently, in accordance with section 219 of the Corporations Act, the following information is provided to Shareholders to allow them to assess the proposed issue of Options to related parties.

AURORA MINERALS LIMITED

ABN 46 106 304 787

The related party to whom the proposed resolutions would permit the financial benefit to be given:

Anketell Pty Ltd, Able Kids Pty Ltd and Holihox Pty Ltd (or their respective Nominees) are the related parties to whom a financial benefit would be given.

The nature of the potential financial benefit

The proposed financial benefit to be given to Able Kids Pty Ltd or Nominee is the grant and issue of 3,000,000 Options for nil consideration and on the terms and conditions set out in the Appendix to this Explanatory Memorandum.

The proposed financial benefit to be given to Anketell Pty Ltd or Nominee is the grant and issue of 3,000,000 Options for nil consideration and on the terms and conditions set out in the Appendix to this Explanatory Memorandum.

The proposed financial benefit to be given to Holihox Pty Ltd or Nominee is the grant and issue of 500,000 Options for nil consideration and on the terms and conditions set out in the Appendix to this Explanatory Memorandum.

Directors' recommendation

Dr Robert Taylor has a material personal interest in Resolution 2 and accordingly does not wish to make a recommendation in relation to Resolution 2. The other Directors, who do not have a material personal interest in the outcome of Resolution 2, recommend that Shareholders approve Resolution 2 as they are of the view that the issue of Options to Able Kids Pty Ltd is appropriate recognition of its efforts to date, and assists the Company in retaining the services and dedication of Able Kids Pty Ltd and therefore Dr Robert Taylor whilst maintaining the Company's cash reserves at a time when there is significant competition for the services of experienced exploration and mining personnel. The Directors (other than Dr Taylor) considered Dr Taylor's experience, the current market price of the Shares and current market practice when determining the terms of the Options and the number of Options to be issued to Able Kids Pty Ltd;

All Directors were available to consider Resolution 2.

Mr Garry O'Hara has a material personal interest in Resolution 3 and accordingly does not wish to make a recommendation in relation to Resolution 3. The other Directors, who do not have a material personal interest in the outcome of Resolution 3, recommend that Shareholders approve Resolution 3 as they are of the view that the issue of Options to Anketell Pty Ltd is appropriate recognition of its efforts to date, and assists the Company in retaining the services and dedication of Anketell Pty Ltd and therefore Mr Garry O'Hara whilst maintaining the Company's cash reserves at a time when there is significant competition for the services of experienced exploration and mining personnel. The Directors (other than Mr O'Hara) considered Mr O'Hara's experience, the current market price of the Shares and current market practice when determining the terms of the Options and the number of Options to be issued to Anketell Pty Ltd;

All Directors were available to consider Resolution 3.

Mr Phillip Jackson has a material personal interest in Resolution 4 and accordingly does not wish to make a recommendation in relation to Resolution 4. The other Directors, who do not have a material personal interest in the outcome of Resolution 4, recommend that Shareholders approve Resolution 4 as they are of the view that the issue of Options to Holihox Pty Ltd is appropriate recognition of its efforts to date, and assists the Company in retaining the services and dedication of Holihox Pty Ltd and therefore Mr Phillip Jackson whilst maintaining the Company's cash reserves at a time when there is significant competition for the services of experienced exploration and mining personnel.

The Directors (other than Mr Jackson) considered Mr Jackson's experience, the current market price of the Shares and current market practice when determining the terms of the Options and the number of Options to be issued to Holihox Pty Ltd;

All Directors were available to consider Resolution 4.

2.3 Other information that is reasonably required by members to make a decision whether it is in the best interests of the Company to pass Resolutions 2, 3 and 4 that is known to the Company or any of its Directors:

(i) Value attributed to the proposed issue of Options

The Company's advisers have valued the Options using the Black-Scholes Option Pricing Model ("**BSModel**") and the Binomial Option Valuation Methodology ("**Binomial Model**"), which are two of the most widely used and recognised models for pricing options.

The BS Model calculates the expected benefit from acquiring the Shares outright less the present value of paying the exercise price for the Options on date of expiration. This model is considered robust and sufficiently accurate as an option pricing tool where options are not expected to be exercised until the end of the option's life. The model uses historical share price volatility measures and therefore may not approximate actual share price behaviours in the future. The Binomial Model is able to value American options which may be exercised at any time over their life.

The Binomial Model uses a "discrete-time" model of the varying price over time of financial instruments; the model is thus able to handle a variety of conditions for which other models cannot be applied. Essentially, the Binomial Model valuation is via application of the risk neutrality assumption over the life of the option, as the price of the underlying instrument evolves.

For European options, the Binomial Model value converges on the BS Model value as the number of time steps increase.

Similar assumptions underpin both the Binomial Model and the BS Model, and the Binomial Model thus provides a discrete time approximation to the continuous process underlying the BS Model.

The following table incorporates the assumptions used in determining values for each the Options, and the results of the valuation methodologies employed.

Assumption	Note	Able Kids Pty Ltd & Anketell Pty Ltd (1)	Holihox Pty Ltd (2)
Underlying Share spot price	1	31 cents	31 cents
Exercise Price	2	38.80 cents	38.80 cents
Dividend rate	3	Nil	Nil
Standard deviation of returns (annualised)	4	55.00%	55.00%
Risk free interest rate	5	5.78%	6.00%
Valuation date	6	27 November 2006	27 November 2006
Expiry date	6	27 October 2011	27 November 2009
Exercise period (years)	7	From the date of issue to 59 months from the date of issue	From the date of issue to 36 months from the date of issue
Black Scholes Valuation (per Option)	8	\$0.147	\$0.109
Binomial Valuation (per Option)	9	\$0.147	\$0.109

AURORA MINERALS LIMITED

ABN 46 106 304 787

- Note 1 The underlying share spot price used for the purposes of this valuation is based on the price of the Shares on the ASX at 27 November 2006.
- Note 2 This price has been set based on the last traded price of the underlying Shares on 27 November 2006, plus 25.16 percent.
- Note 3 As at the date of this report the Company has not forecast any future dividend payments. For the purposes of the valuation it has therefore assumed been assumed that the Company's Share price is "ex-dividend". If dividend payments were forecast, the value of the Options would be reduced.
- Note 4 The anticipated standard deviation over the life of the Options is based on the Company's historical data from the Australian Graduate School of Management's Risk Measurement Service.
- Note 5 The risk free rate is the Commonwealth Government securities rate with a maturity date approximately that of the expiration period of the Options as at (1) 27 October 2011 and (2) 27 November 2009. (Source: Reserve Bank of Australia).
- Note 6 The valuation date for the purposes of this report is the last traded date prior to the date of this valuation.
- Note 7 The expiration period is the difference between the issue/valuation date and expiration date in years.
- Note 8 See above for detailed background on the methodology of the valuation type.
- Note 9 See above for detailed background on the methodology of this valuation type.

Based on the valuation methodologies adopted and the assumptions made the Company's advisers value the options, after considering the values calculated using the Black-Scholes and Binomial methods, to equal, in the case of (1) above 14.7 cents, and in the case of (2) above, 10.9 cents.

The valuation assumes that all Options have vested to the option holder and that there are no performance hurdles that must be achieved that would otherwise potentially dilute the value of the Options to the holder on the assumption that they may not vest.

(ii) *Sensitivity Analysis*

The calculation of the value of the Options has been subjected to a sensitivity analysis using the BS Model to examine the effect of varying the principal assumptions used in the valuation. The results of this analysis are as follows:

Variable – Standard deviation of returns (annualised)		Value per Option (Black Scholes) (1)	Value per Option (Black Scholes) (2)
Plus 5%	60.0%	\$0.158	\$0.119
Plus 2.5%	57.5%	\$0.152	\$0.114
Listed standard deviation	55%	\$0.147	\$0.109
Less 2.5%	52.5%	\$0.141	\$0.104
Less 5.0%	50.0%	\$0.136	\$0.099

The table above shows that Standard Deviation has a significant influence on the value of the Options.

AURORA MINERALS LIMITED

ABN 46 106 304 787

Variable - Interest Rate		Value per Option (1)
Plus 10%	6.358%	\$0.149
Plus 5%	6.069%	\$0.148
Risk free interest rate	5.78%	\$0.147
Less 5%	5.491%	\$0.146
Less 10%	5.202%	\$0.145

Variable - Interest Rate		Value per Option (2)
Plus 10%	6.60%	\$0.111
Plus 5%	6.30%	\$0.110
Risk free interest rate	6.00%	\$0.109
Less 5%	5.70%	\$0.108
Less 10%	5.40%	\$0.107

The tables above show that the risk free interest rate has only a minor influence on the value of the Options.

Variable – Share Price	Issue Price (Cents)	Exercise Price (Cents)	Value of Options (1)	Value of Options (2)
Plus 10%	34.10	42.68	\$0.162	\$0.120
Plus 5%	32.55	40.74	\$0.154	\$0.115
Market price as at 27 November 2006	31.00	38.80	\$0.147	\$0.109
Less 5%	29.45	36.86	\$0.140	\$0.104
Less 10%	27.90	34.92	\$0.132	\$0.108

The table above shows that changes to the issue price has a significant influence on the value of the Options.

Assuming all of the proposed 6,500,000 Options to be issued to the Consulting Companies or their Nominees are exercised, and the existing 4,200,000 Options on issue are exercised, the effect would be:

- to dilute the shareholding of existing Shareholders by approximately 20.1%; and
- if in addition the 1,300,000 Options the subject of Resolution 5 are issued and exercised the total effect would be to dilute the shareholding of existing Shareholders by approximately 22.5%.

The market price of the Shares during the term of the Options will normally determine whether or not the option holders will exercise the Options. At the time any Options are exercised and Shares are issued pursuant to the exercise of the Options, the Shares may be trading on ASX at a price which is higher than the exercise price of the Options.

(vi) *Share prices over the past 12 months*

In the 12 months ending on 27 November 2006 the highest price of shares in the Company trading on the ASX was 39 cents, which occurred on 6 February 2006, and the lowest price was 16 cents, which occurred on 21 July 2006.

The closing price of the Company's shares on 27 November 2006 was 31 cents. The share price during this period has traded at various levels.

(vii) *Impact of International Financial Reporting Standards*

The Company's adoption of Australian equivalents to International Financial Reporting Standards for reporting periods commencing from 1 July 2005 means that, under AASB2 Share-based Payment, equity-based compensation is recognised as an expense in respect of the services received.

Except as stated in this Explanatory Memorandum the Directors do not consider that from an economic and commercial point of view, there are any costs or detriments including opportunity costs or taxation consequences for the Company or benefits foregone by granting the Options pursuant to Resolutions 2, 3, and 4.

The Directors (other than in respect of the Resolution that they receive a benefit, in which case they decline to comment) do not consider there are any significant costs or detriments including opportunity costs or taxation consequences to the Company or benefits foregone by the Company in issuing the Options to the Consulting Companies or their Nominees upon the terms proposed except as otherwise disclosed in this Explanatory Statement.

Neither the Company nor the Directors are aware of any undisclosed information that would be reasonably required by shareholders to make a decision in relation to the potential financial benefits contemplated by the proposed Resolutions 2, 3, and 4.

2.4 ASX Listing Rule 10.11

ASX Listing Rule 10.11 prohibits a listed company from issuing securities to a person who is a director of the Company without the approval of shareholders.

The following additional information is provided to Shareholders in accordance with ASX Listing Rule 10.13:

- (a) the Options will be issued to Able Kids Pty Ltd or its Nominee, Anketell Pty Ltd or its Nominee, and Holihox Pty Ltd or its Nominee;
- (b) the maximum number of Options to be issued is 6,500,000 (being 3,000,000 to Able Kids Pty Ltd or its Nominee, 3,000,000 to Anketell Pty Ltd or its Nominee and 500,000 to Holihox Pty Ltd or its Nominee);

AURORA MINERALS LIMITED

ABN 46 106 304 787

- (c) the Options will be issued for on a date which will be no later than one month after the date of the Meeting;
- (d) the Options will be issued for nil consideration;
- (e) no funds will be raised by the issue of the Options;
- (f) the terms and conditions of the Options are set out in the Appendix to this Explanatory Memorandum.

As approval of Shareholders is being sought pursuant to ASX Listing Rule 10.11, under ASX Listing Rule 7.2 (Exception 14), Shareholder approval under ASX Listing 7.1 is not required.

3. Resolution 5 – Issue of options to Consultants

The Company proposes to offer, and if accepted, grant and issue a total of 1,300,000 Options in the portions, and to the persons (or their approved Nominees), specified in column two of Table 1 below, being consulting companies which have been retained by the Company to provide the consultancy services of the persons named in column one of Table 1 below.

The exercise price of these options will be a 25.16% premium above the market price of the Company's shares on the date upon which the Options are issued. For example if the market price of the shares at the time the Options are issued is 31 cents, the exercise price will be 38.80 cents and if all such Options are exercised this will raise \$504,400 for the Company.

The grant of the Options is designed to:

- i) encourage the consultants to have a greater involvement in the achievement of the Company's objectives by providing a material additional incentive for their ongoing commitment and dedication to the continued growth of the Company and
- ii) do this in a way which does not deplete the Company's cash reserves.

The number of Options to be issued to each Consultant was negotiated with the consulting companies at arms length and is considered by the Directors to be appropriate.

If this Resolution is approved by shareholders, in order to retain a reasonable balance of remuneration between the Company's various consultants, the Company intends to offer the options referred to in this Resolution provided each of Resolutions 2, 3 and 4 are also approved.

Table 1

Name	Consulting Company which provides the person's services under contractual arrangements.	Consulting Services	Number of Options
Kenneth Banks	KMB Australia Pty Ltd	Investor Relations	800,000
Andrew Kenny	Airmax International Pty Ltd	Administration and Corporate	500,000
			1,300,000

Additional information

The following additional information is provided to Shareholders pursuant to Listing Rule 7.3:

- (a) the maximum number of Options to be issued under Resolution 5 is 1,300,000;
- (b) the exercise price for the Options is the closing market price for the Shares as at the date of the issue of the Options plus 25.16% of that price;

AURORA MINERALS LIMITED

ABN 46 106 304 787

- (c) the Options will be issued on a date which is no later than one month after the date of the Meeting;
- (d) the Options will be issued for nil consideration;
- (e) the allottees are the Consulting Companies specified in the second column in Table 1 above, or their Nominees;
- (f) the Options will be exercisable from the date of issue until 36 months after their issue date;
- (g) the terms and conditions of the Options are set out in the Appendix to this Explanatory Memorandum;
- (h) no funds will be raised by the issue of the Options; and
- (i) if all the Options are ultimately exercised, the amount raised will depend on the exercise price for the Options which will vary depending on the market price for the Company's Shares on the date of issue of the Options.

All of the Directors were available to consider the proposed Resolution.

4. Resolution 6– Approval for possible future placement of Shares

The purpose of this Resolution is to give the Company the opportunity, if it arises, to take advantage of any favourable market conditions in early 2007 and seeks prior shareholder approval under ASX Listing rule 7.1 for the issue of up to 7,342,000 fully paid ordinary shares in the Company ("Issue") at the date of the issue, at a price that is at least 80% of the average market share price of Aurora's fully paid ordinary shares over the last 5 days on which sales of the Company's shares are recorded before the day of issue of the Shares (or if a prospectus or other disclosure statement issued in relation to the issue before the date of signing of that document).

If Resolution 1 is passed, Shareholder approval will not be required for the Issue. However, shareholder approval of the Placement is sought pursuant to Listing Rule 7.1 so as to preserve the ability of the Company to also issue up to 15% of the issued capital of the Company during the next twelve months without obtaining prior shareholder approval.

The reasons for such a possible placement are the same reasons as set out for the Placement announced on 29 November 2006, and in respect of which shareholder ratification is sought pursuant to Resolution 1 and which are detailed in this Notice of Meeting.

Allottees will be clients of one of more stock broking firms selected by the Company.

Any Shares to be issued in accordance with Resolution 6 will be issued no later than 3 months after the Extraordinary General Meeting.

The Shares will be fully paid ordinary shares and will rank equally with all other existing fully paid shares in the Company from their date of issue.

The Directors believe that Resolution 6 is in the best interests of the Company and its shareholders and unanimously recommend that shareholders vote in favour of it.

AURORA MINERALS LIMITED

ABN 46 106 304 787

more lots on different occasions during the Exercise Period. Within 5 business days of receipt of the “Exercise Notice” and Consultant Option certificates and payment of the

“Exercise Price”, the Company will allot the corresponding number of fully paid ordinary shares to the optionholder, procure the issue a statement of holding for the shares and apply for the shares to be listed on the stock exchanges on which the Company is listed. The shares issued as a result of exercise of the Consultant Options shall rank equally in all respects with the other issued fully paid shares in the Company.

(h) New share issue

If the Consultant Options are exercised before the record date of an entitlement, the optionholder can participate in a pro rata issue to the holders of the underlying securities in the Company. The Company must notify the optionholder of the proposed issue at least 9 business days before the record date. Optionholders do not have a right to participate in new share issues without exercising their Consultant Options in accordance with Listing Rule 6.19.

(i) Bonus Issue

If, from time to time, before the expiry of the Options the Company makes a pro rata issue of Shares to Shareholders for no consideration, the number of Shares over which the Options are exercisable will be increased by the number of Shares which the optionholder would have received if the Option had been exercised before the record date for calculating entitlements to the pro rata issue.

(j) Reorganisations

In the event of any reorganization of the issued capital of the Company, the Consultant Options will be reorganized by the Company in accordance with the Listing Rules (including without limitation by changing the number or exercise price for the Consultant Options in such manner as may be required by the Listing Rules.)

(k) Change of Consultant Option's exercise price or the number of underlying securities

(i) In the event that a pro rata issue (except a bonus issue) is made to the holders of the underlying securities in the Company, the exercise price of the Consultant Options may be reduced according to the following formula:

$$O' = \frac{O - E[P - (S + D)]}{N + 1}$$

O' = the new exercise price of the Consultant Option;

O = the old exercise price of the Consultant Option;

E = the number of underlying securities in the Company into which one option is exercisable;

P = the average market price per security (weighted by reference to volume) of the underlying securities in the Company during the five (5) trading days ending on the day before the ex rights date or ex entitlements date;

S = the Subscription price for a security under the pro rata issue;

D = the Dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue);

N = the Number of securities with rights or entitlements that must be held to receive a right to one new security in the Company.

(ii) The number of shares to be issued pursuant to the exercise of Consultant Options will be adjusted for bonus issues made prior to exercise of Consultant Options. The effect will be that upon exercise of the Consultant Options the number of shares received by the optionholder will include the number of bonus shares that would have been issued if the Consultant Options had been exercised prior to the record date for bonus issues. The exercise price of the Consultant Options shall not change as result of any such bonus issue.
